

Phil Smith BSc, PhD, CEnv, CChem, MRSC, MCIWEM

Qualifications

BSc Chemistry and Environmental Science (First), University of Wales Institute of Science and Technology (UWIST), Cardiff. (1978). Specialised in freshwater biology and ecology, analytical chemistry, organic chemistry and radiochemistry. Chartered Chemist (CChem) qualification from the Royal Society of Chemistry (1981) PhD 'Environmental Effects of Discharges to the Littoral Zone of the Humber Estuary'. Department of Zoology, University of Hull. (1982). Research included studies of benthic invertebrates at polluted & unpolluted sites; analysis of metals in fauna & sediments; analysis of hydrocarbons in sediments; invertebrate toxicity testing & satellite remote sensing of discharges. Member of the Chartered Institution of Water & Environmental Management (MCIWEM) (1988) Chartered Environmentalist (CEnv) from the Society for the Environment (2004)

Affiliations

Listed on the National Policing Improvements Agency (NPIA) Database for Expert Advisors
Member of the Royal Society of Chemistry (MRSC)
Member of the Chartered Institution of Water and Environmental Management (MCIWEM)
Member of the Marine Biological Association, UK
Member of the Estuarine and Coastal Sciences Association
Member of the Freshwater Biological Association
Member of the British Ecological Society

Nationality

British

Languages

English – native; French - fair; Spanish - basic.

Date of Birth

12 March 1957

Current Position at CWA

External Consultant

Key Experience

Dr Smith is a Chartered Chemist and Chartered Environmentalist with 30 years of experience in ecological surveys and assessment of the impacts of contaminants (metals and organics) on water, sediments, invertebrates and fish. Key areas of experience are:

- Environmental Impact Assessments and EIA Training.
- Chemical analysis of waters, sediments and biota.
- Expert Witness on water pollution, fish and shellfish kills and related issues.
- Management of pollution affecting rivers, estuaries and coastal waters. Compliance audits.
- Monitoring the impacts of discharges, engineering works & dredging on the aquatic environment.
- Ecological and chemical surveys of fresh, estuarine and marine waters.
- Assessing ecological and chemical aspects of pollution.
- Conservation assessment of aquatic habitats.
- Oil spill sensitivity mapping and contingency planning.
- Assessment of contaminated sediments.

Other Experience

- Impact of underwater noise, e.g. from quarries and seismic surveys.
- Forensic analysis of marine life on bones etc.
- Toxicity testing.
- Satellite and aircraft remote sensing.
- Environmental communications and education.
- Environmental Management.

Employment History

Launched Aquatic Environmental Consultants in 1982 to provide industry, engineering consultancies and regulatory organisations with advice on monitoring and predicting the effects of discharges, spills and engineering works on aquatic ecosystems. In January 2004 the name of the consultancy was changed to Aquatronics Ltd.

Dr Smith has travelled quite widely in Africa (Senegal, Gambia, Tunisia, Zanzibar and Kenya) and has worked in Ireland, Norway, Oman, Egypt, Saudi Arabia, Qatar, Bermuda, Madagascar, India, Thailand and Hong Kong. Details are provided in the list of contracts. He works well with people of all nationalities and cultures, and finds it relatively easy to adapt to local conditions and cultural norms.

Country Experience

Egypt, Oman, Saudi Arabia, Qatar, India, Madagascar, Thailand, Hong Kong, Bermuda, Norway, Ireland & UK.

Computing

Statgraphics, PRIMER, Surfer & Digger
OILMAP Oil Spill Model and associated GIS

Licences Held

Licence from English Nature under the Wildlife and Countryside Act for surveying the tentacled lagoon worm, *Aikmaria romijni*.

Contracts Awarded To Dr Phil Smith Since 1987

(A list of contracts from 1982 - 1986 is also available.)

2009

Buro Happold

Preparation of section on aquatic ecology (seaweeds, invertebrates, fish and marine mammals) of the Environmental Statement for the Hayle Harbour Revision Order (HRO).

Commercial Client

Site visit and analysis of data relating to suspected water pollution incident due to run-off from a composting site.

Falmouth Boat Construction

Ecological survey of a proposed pontoon development, Fal estuary.

Commercial Client

Ecological and chemical survey of a river.

2008

Steeles Law and Landa Conserven

Assessment of causes of mortality of farmed mussels in Poole Harbour and assistance with calculating the financial loss.

ING Real Estate and Buro Happold

Aquatronics Ltd provides advice on the aquatic aspects of the proposed development of Hayle Harbour. This included biotope mapping of the Hayle estuary complex.

Natural England

Mapping of rocky biotopes around Lundy Island, Bristol Channel.

Hill Dickinson & Andrew Jackson (solicitors)

Advice on assessing impacts of dredging on cockle ecology and landings.

The Marine Hotel, Salcombe

Ecological impact assessment of a proposed hotel and pontoon development, with special reference to eelgrass (*Zostera marina*) and seahorses (*Hippocampus hippocampus* and *H. guttulatus*).

Heidra Ltd

Assistance with scoping the environmental assessment of a small hydroelectric power scheme on the River Mardle, Dartmoor.

Devon and Cornwall Police

Estimation of time skull had been in seawater from an analysis of the growth of marine life on it.

Medina Valley Centre

Analysis of core samples from the Medina estuary, Isle of Wight.

2007

URS Corporation Ltd/BioLab Ltd

Repeat ecological survey of an English river following a fire and chemical spill.

Environmental Perspectives

Ecological assessment of freshwater tidal habitat at Brentford, Thames.

Natural England

Mapping sedimentary biotopes around the Lundy Marine Nature Reserve.

Faber Maunsell Ltd

Intertidal surveys of a lagoon near a proposed marina development on the Dart estuary.

The Environment Practice and ING Real Estate

Intertidal surveys of Carnsew Pool and Hayle Harbour, Cornwall. Preparation of text on aquatic ecology and impacts for the Environmental Statement.

First Steps Ltd

Provision of a Workshop on Environmental Impact Assessment, BRE Watford.

South West Water & Pell Frischmann

Mitigation of impacts of a new intertidal and shallow subtidal pipeline at South Town, Dartmouth. Involved moving samples of rocks, sediment and associated flora and fauna from the pipeline route to a safe haven nearby and replacing them at the end of trenching and back-filling.

2006

The Environment Practice and ING Real Estate

Intertidal surveys of Carnsew Pool and Penpol, Hayle, Cornwall.

Ecological Planning and Research

Intertidal ecological survey and analysis of chemical contaminants at a site on the Itchen estuary, Southampton.

URS Corporation Ltd

Ecological survey of an English river following a fire and chemical spill.

First Steps Ltd

Provision of a Workshop on Environmental Impact Assessment, BRE Watford.

Pell-Frischmann Ltd

Intertidal ecological survey and biotope mapping prior to a first time sewerage scheme, Helford estuary, Cornwall.

Faber Maunsell Ltd

Intertidal and subtidal surveys for a proposed marina development on the Dart estuary.

Ecological Planning and Research

Biotope mapping of intertidal habitats at Lyme Regis, as part of the ecological impact assessment of Phase IV of the sea defence programme.

IMG Ltd

Ecological assessment of possible impacts of music concerts held on a floating stage on a lake at Hampstead Heath, London.

South West Water Ltd

Ecological survey at Starcross, Exe estuary, to assess impacts of an accidental discharge of sewage.

Environmental Resources Management

Repeat ecological survey of a stream and river affected by a diesel spill. Appearance in court as an Expert Witness.

The Environment Practice/ ING Real Estate

Continuation with ecological and fishery inputs into the EIA for the Hayle Harbour development, Cornwall.

Environmental Perspectives

Ecological and sediment contamination survey of intertidal sediments at a proposed development site on the Thames at Battersea.

Marine Bio-Images

Analysis of sediment contamination data in Portland Harbour.

Scottish Aquaculture Research Forum (SARF)

The biodiversity implications of farming novel marine species.

2005

Devon Wildlife Trust

Ecological survey of Lyme Bay, English Channel. Mapping of sediment biotopes.

The Environment Practice/ ING Real Estate

Continuation with ecological and fishery inputs into the EIA for the Hayle Harbour development, Cornwall.

Aseda Environmental Consultancy

Assistance with survey of brackish water habitats near Queenborough, Isle of Sheppey. Identification of invertebrates from saline waters

Fugro Survey Ltd

Assessment of environmental impacts of effluent from an Autonomous Underwater Vehicle (AUV).

South West Water

Ecological surveys and EIA of a proposed pipeline route, Dartmouth, UK.

ERM Ltd

Assessment of the ecological impact of a spill of red diesel on a stream and the River Ray, Swindon.

WSP Environmental

Survey of intertidal habitats near Swansea Docks, Wales. Part of the EIA of the SA1 development.

CWA International/West of England P & I Hong Kong

Examination of suspected contaminated tuna from the Marshall Islands. Visit to

Thailand to inspect reefer vessel and cannery and take samples for chemical analysis.

2004

Cascade Consulting Ltd / Plymouth Yacht Marina

Survey of intertidal and subtidal habitats prior to dredging.

South West Water Ltd

Ecological impacts of an accidental release of sewage in the Teign estuary, Devon.

The Environment Practice/ ING Real Estate

Ecological surveys and inputs into EIA of Hayle Harbour development, Cornwall.

South West Water Ltd

Ecological assessment of seepage from a sewage pipeline in Boscastle Harbour, Cornwall.

WSP Environmental

EIA of a proposed berth development on the Thames at Battersea. Advice on monitoring benthic invertebrates and fish habitat.

RPS Ltd

Survey for Desmoulin's Whorl Snail (*Vertigo moulinsiana*) near route of proposed Harnham Relief Road, Salisbury.

Anglian Water

Advice regarding a pollution incident.

RPS Ltd

River Corridor Surveys and pond surveys for Westbury bypass, Wiltshire.

Posford Haskoning Ltd

Management of aquatic ecology and fishery aspects of a Scoping Study for Thanet offshore windfarm

CH2M HILL/Shell International E & P

Survey of invertebrates and fish in a mangrove area in Qatar, Middle East

Black and Veatch Consulting/Essex and Suffolk Water

Results of a 5 year monitoring programme on the ecology and fisheries of the Wash embayment, UK.

CH2M HILL/Shell International E & P

Quality Assurance of benthic samples from marine surveys in Qatar.

2003

Nicholas Pearson Associates

Impact of redevelopment of Battersea Power Station on estuarine invertebrates and fish in the Thames estuary.

Marcus Hodges/Wessex Water

Advice regarding Wimbleball Reservoir, Devon.

Babtie Group/Kent County Council

Surveys of freshwater and estuarine aquatic invertebrates near Sittingbourne, Kent.

Cascade Consulting Ltd

Survey of intertidal habitats and biotopes at Plymouth Yacht Haven.

Ecological Planning & Research

Survey of intertidal habitats at The Camber, Portsmouth.

Babtie Group/Oxfordshire County Council

Surveys of freshwater aquatic invertebrates, Witney-Cogges Link, Oxfordshire.

South West Water

Impact of an accidental discharge of sewage on the ecology of the River Allen, Cornwall.

2002

Adelphi Environmental/Qatar Petroleum

Advice on water quality, sediment quality and tissue guidelines for a marine survey for Qatar Petroleum

WSP Environmental

Conservation assessment of an intertidal area at Minoco Wharf, Thames estuary, London.

Gabb & Co, Solicitors

Advice on groundwater contamination in relation to a water supply for an organic farm.

South West Water

Ecological survey of pipeline route at Warfleet, Dart Estuary.

Haswell Consulting Engineers/Pirelli Cables

Repeat biological and chemical surveys at Erith, Thames estuary.

Hydrosearch Associates Ltd and GE Wind Power

Various ecological aspects of EIA and ES for a proposed offshore wind farm in Essex. Advice regarding terrestrial, freshwater and marine ecology and impacts.

2001

Metoc PLC and Scottish Power

Scoping Study for an offshore wind farm (Shell Flat). Advice regarding benthic invertebrates, fish and contamination in sediments.

Associated British Ports Research & Consultancy

Surveys of benthic invertebrates and contaminants at intertidal sites in Southampton Water

Hayle Harbour Company

Surveys of fish in Carnsew Pool and other parts of the Hayle estuary complex Cornwall.

South West Water Ltd

Conservation assessment and biotope mapping of intertidal habitats in Dartmouth and Old Mill Creek; part of an EIA of the Dartmouth and Kingswear sewage treatment scheme

Industrial client

Predicted impacts of a high pH discharge on stream ecology.

EDAW Ltd

Ecological survey of intertidal habitats at Rochester, Kent; part of an EIA of a large housing and commercial sector development.

Binnie Black & Veatch

Continuation with a study on the impacts of reduced freshwater flow on the ecology and fisheries of the Wash embayment, UK.

Ecological Planning & Research / Associated British Ports

Continuation of predictions of impact of a proposed container terminal on estuarine invertebrate communities in Southampton Water.

2000

Department of Trade and Industry (2000-2003)

SMART award to examine the beneficial use of marine clays (from dredging) for removing metals from acid mine discharges and industrial effluents. A research project involving laboratory and field trials.

Adams Loxton Partnership

Advice on environmental protection of water courses for contractors bidding for dualling of the A43.

The Environment Practice/Hayle Harbour Company (2000 – 2001)

Ecological surveys and ecological impact assessment of harbour, marina, housing, leisure and light industrial development at Hayle, Cornwall.

Haswell Consulting Engineers/BICC Cables

Intertidal and subtidal benthic surveys in the Thames estuary. EIA of a proposed jetty and associated dredging at Erith.

1999

Nicholas Pearson Associates/Persimmon Homes

Conservation assessment of intertidal habitats at Wandsworth, London as part of the EIA of a housing and berth development.

Ecological Planning and Research

Review of colonisation rates of artificial intertidal habitats and a survey of colonisation of an artificial mudflat at Shotley Point, created using sediments from dredging.

Wyvern Waste Services Ltd

Survey of freshwater habitats and inputs into the EIA and mitigation measures for a landfill site on the Somerset Levels, UK.

Aerolaminates/Ecological Planning & Research

Analysis of benthic invertebrates in the Medina estuary, Isle of Wight. Part of an environmental assessment of a wind turbine blade loading facility.

Ashdown Environmental Ltd

Survey of macroinvertebrates in a UK stream affected by a pollution incident. Comparison of the aquatic toxicity of two turbine blade cleaning agents.

Ecological Planning & Research

Conservation assessment of benthic invertebrate communities at Hythe, Southampton Water. Continuation of a long-term EIA of a proposed container port development in Southampton Water.

Binnie Black & Veatch

Continuation with study on the impacts on ecology and fisheries of reduced freshwater flows into the Wash embayment, UK. Reviews of the ecology and fisheries of cockles, mussels and brown shrimps.

1998

South West Water plc

Ecological survey of benthic biotopes for a sewage pumping main crossing of the Kingsbridge estuary.

Ecological Planning & Research

Benthic invertebrates of Dibden and Weston Shelf intertidal and subtidal habitats.

CH2MHILL/Phillips Petroleum

Ecological and marine inputs to an EIA of a petrochemical complex in Qatar

Newsome Vaughan Solicitors

Advice relating to a fish kill in the Lake District.

ENSR International

Survey of freshwater invertebrates at a development site.

Sansbury Hill (Solicitors)

Advice relating to a pollution incident at a building site in Somerset.

The Environment Practice

Impact of short-term changes in salinity and tides on intertidal invertebrates, Hayle Harbour, Cornwall.

MacAlister Elliott & Partners / World Bank

Global Environment Facility Project - Red Sea, Egypt. Public Awareness of the Red Sea Project.

1997

Hydrosearch / Triton Energy (UK)

Environmental Impact Studies of two seismic surveys, for coastal waters off Madagascar. Management of fisheries consultations and liaison.

Hydrosearch / Premier Oil

Dumbar Field, Pakistan. Providing Premier Oil with examples of oil and gas industry best practice in environmentally sensitive areas.

MacAlister Elliott & Partners / World Bank

Global Environment Facility Project - Red Sea, Egypt. Advice on oil and gas exploration and oil spills.

Environmental Resources Management Ltd

Contributed towards the proposed monitoring programme for removal of debris from the disused submarine base at Holy Loch, Scotland.

Associated British Ports / Ecological Planning & Research (97-98)

Impact of capital dredging incident on intertidal invertebrates.

Associated British Ports / Ecological Planning & Research (97-99)

Water quality and invertebrates of saline pools. Surveys of intertidal invertebrates at Dibden Bay, Southampton prior to proposed port development.

Essex and Suffolk Water/ Binnie Black & Veatch (97-98)

Impact of increased water abstraction from the Great Ouse on shellfisheries and ecology of the Wash.

1996

South West Water

Assessment of the impacts of a sewage discharge on the benthic invertebrates of the Truro River, Cornwall.

Axe Vale Rivers Association

Water quality in the Axe catchment and potential impacts on salmon.

Osborne Clarke Solicitors

Advice on financial damages resulting from a salmon kill on the River Wye.

Triton Energy (UK) Ltd

Environmental legislation relating to seismic surveys in Omani coastal waters.

RMC Roadstone Products Ltd

Assessment of likely impact of noise and vibration from a coastal quarry on marine life.

Nicholas Pearson Associates

Assistance with preliminary assessment of an offshore pipeline route.

Symonds Travers Morgan

Assistance with scoping an EA for a port development in Oman.

Wessex Water plc

Report on the impacts of the West Bay sewage discharge on benthos and sediment quality, Lyme Bay.

Montgomery Watson

Investigations into biofouling of a pumping main with a saline intrusion, Fowey, Cornwall.

Hawkins Solicitors

Scientific advice relating to a Judicial Review of aggregate dredging for the Lincshore scheme.

The Environment Practice

Survey of benthic invertebrates in Goldcliff Pill and the Severn estuary in relation to constructed saline lagoons for waders. Advice on construction & operation of the lagoons.

1995

Save Open Spaces/ Mid-Ocean Club

Assessment of the likely environmental impact of the Castle Harbour Resort proposal, Bermuda. Impact of the development on the underlying caves (which contain many endemic invertebrate species) and on terrestrial ecology including native and endemic woodland.

Hawkins Solicitors

Report on the likely environmental impact of aggregate dredging near the mouth of the Wash on commercial shrimp fishing.

Kerr-McGee Oil (UK) and Partners

Pre- and post-drilling surveys of benthic invertebrates and contaminants in Lyme Bay.

Bristol Water plc

Environmental assessment of disposal of sludge from a drinking water treatment works. Effects of a change from aluminium sulphate to iron sulphate treatment of the water.

Bovis Technical Services Ltd

Ecological assessment of an intertidal site on the Thames, London and predicted environmental impacts of a proposed housing development

Kerr-McGee Oil (UK) and Partners

Review of the marine biological resources for a North Sea Licence Block application to the DTI.

1993 - 1996

Kerr-McGee Oil (UK) and Partners

Baseline surveys of ecology & contaminants in Lyme Bay, prior to exploratory drilling.

1994

Body Shop International plc

Microtox survey of water quality near the Body Shop discharge at Littlehampton, English Channel.

1993

Cobham Resource Consultants

Assessment of impacts of proposed high-speed rail link on freshwater invertebrates, London to Channel Tunnel.

Kerr-McGee Oil UK / Ambios Ltd

Management of inputs for a scoping document on the marine resources, including fish and fisheries, of an oil licence exploration block off the west coast of Ireland.

Cobham Resource Consultants

Assessment of impacts of road upgrading on freshwater invertebrates, west coast of Scotland.

The Body Shop

Advice on effluent ecotoxicology.

1992

Nalder and Son (solicitors)

Survey of invertebrates in a stream affected by pollution. Expert witness.

Portsmouth City Council / Ecological Planning & Research

Pollutants and benthic invertebrates in mudflats proposed for reclamation. Impacts of metals and PCBs on mudflat invertebrates and algae.

Kerr-McGee Oil UK / Ambios Ltd

Management of baseline and post-drilling surveys of hydrocarbons and metals in two oil exploration blocks.

Kerr-McGee Oil UK / Ambios Ltd

Preparation of an environmental programme for their application for an oil exploration licence block in the English Channel.

David Bellamy Associates

Freshwater invertebrate sampling of sites near Redwick, Gwent. Suitability of sites for creation of bird habitats.

WS Atkins/South West Water

Assessment of invertebrate and plant habitats in the Kingsbridge estuary, Devon.

Environmental Management Ltd / South West Water

EIA of the Wimbleball Pumped Storage Scheme; especially the predicted impacts on freshwater invertebrates.

Ecological Planning & Research / Southern Water

Designing intertidal and subtidal survey programmes at Ventnor, Isle of Wight, including diving surveys. Assessing impacts of a new sewage discharge.

Environmental Management Ltd / Strathclyde Regional Council

BPEO (Best Practicable Environmental Option) study of sewage sludge treatment and disposal in Strathclyde. Assessment of the impact of the sea disposal route.

1991

Hawkins Solicitors

Assessment of the causes of microbiological contamination of mussel beds in the Wash, UK.

United Biscuits

Advice on an insurance claim following a fish kill.

Environmental Management Ltd / Donegal County Council

EIA of a proposed water supply reservoir in County Donegal (Ireland). Impacts on fisheries, water quality and aquatic ecology.

Countryside Planning and Management / English Heritage

EIA of a proposed visitor centre for Stonehenge. Impacts on aquatic ecology and water quality.

Environmental Management Ltd / Teesside Development Corporation

Expert witness on aquatic ecology at a Public Inquiry into a proposed incinerator for sewage sludge and industrial waste at Portrack. Appeared on behalf of TDC who objected to the proposal.

Laura Ashley Foundation

Water quality in the Thames and Kennet.

Cremer and Warner / Overseas Development Administration

EIA of a dam supplying water to a zinc smelter, Rajasthan, India.

1990

Eagle Star Estates

Water quality and ecological impacts of a proposed new town on the R. Dever chalk stream.

Llanelli Borough Council / Trevor Crocker and Partners

EIA of proposed harbour works at Burry Port Docks, South Wales.

1989

Highland Regional Council / Watson Hawksley

EIA of a proposed long sea outfall at Inverness.

Sea Containers / Trevor Crocker & Partners

EIA of proposed harbour and housing developments at Folkestone, UK.

Countryside Planning & Management

Advice on water quality in the rivers Lambourn and Winterbourne, UK.

Stockport Borough Council

Report on water quality in the rivers Tame, Goyt and Mersey, UK.

Lancashire County Council

Effects of a proposed long sea outfall on marine ecology on the Fylde coast and Morecambe Bay, UK.

1988

W S Atkins

EIA of the proposed Tees Barrage, UK. Effects on aquatic ecology.

British Coal / Sea Sediments Ltd

Initial environmental assessment of colliery spoil and tailings water disposal to the intertidal zone, NE England.

Berridge Environmental Laboratories

Assistance with sampling soils and sediments contaminated with arsenic, copper, zinc & cyanide.

David Bellamy Associates

Impact of a proposed harbour, housing and leisure development on invertebrates and water quality.

Cremer and Warner

Water quality implications of a proposed reclamation near Green Island, Hong Kong.

W S Atkins

Environmental assessment of a proposed weir, reclamations and marina in SW England.

Butterworth Laboratories Limited

Sampling and analysis of macroinvertebrates from freshwater lagoons, East Sussex, UK.

Environmental Protection Department, Hong Kong / Watson Hawksley

Analysis and interpretation of chemical & biological data from the summer 1987 baseline survey of the proposed marine disposal site for sewage sludge, Hong Kong.

Wansford Trout Farm Limited

Report on the effects of the trout farm on ecology and water quality in the West Beck, UK.

1987

Ministry of Environment and Water Resources, Oman / WS Atkins

3 month secondment to the Environmental Impact Section of Oman's Ministry of Environment and Water Resources. Reviewed EISs submitted to the Ministry, e.g. industrial and aquaculture projects, flood control dams and aquifer recharge dams. Advised on environmental aspects of offshore oil.

Environmental Protection Department, Hong Kong / Watson Hawksley

Advice on monitoring sewage sludge disposal to a marine site, Hong Kong. Co-leader of the summer 1987 survey, responsible for all biological and statistical aspects of the survey, and jointly responsible for sampling sediments and water for chemical analysis.
